

Leading Battery Technology Innovation

[www.cam-srl.com](http://www.cam-srl.com)

# About Us

CAM is a company which produces  
**HEAVY-DUTY ITALIAN BATTERY  
EQUIPMENT.**

We manufacture a wide range of  
products for the battery manufacturing  
industry, ranging from **lead oxide  
production to curing.**

The CAM logo is rendered in a stylized, modern font. Each letter is composed of multiple horizontal white bars of varying lengths, creating a sense of depth and movement. The letters are set against a dark blue background.

**HOW CAN WE MAKE HIGH LEVEL  
BATTERIES WITH  
A BETTER PROFIT MARGIN?**

# CO<sub>2</sub> emission reduction

An increasingly complex matter that must be tackled at a global level

Through innovation, CAM has successfully turned the tables

**Pollution and CO<sub>2</sub> near metropolitan areas**

**Our idea? To apply the physical  
phenomenon of MAGNETIC INDUCTION  
to produce GRIDS**

***CAN***

# **FASTMELT**

# **FASTMELT**

*the first **NO GAS melting system** for lead alloy ingots for GRID production*

# BENEFITS

**1- Just in time production**

# BENEFITS

- 1- Just in time production**
- 2- Reach 400°C in 20 minutes**

# BENEFITS

- 1- Just in time production**
- 2- Reach 400°C in 20 minutes**
- 3- Production rate: 6 t/h**

# BENEFITS

- 1- Just in time production**
- 2- Reach 400°C in 20 minutes**
- 3- Production rate: 6 t/h**
- 4- Equipment footprint reduced by 50%**

# BENEFITS

- 1- Just in time production**
- 2- Reach 400°C in 20 minutes**
- 3- Production rate: 6 t/h**
- 4- Equipment footprint reduced by 50%**
- 5- Automatic dross removal**

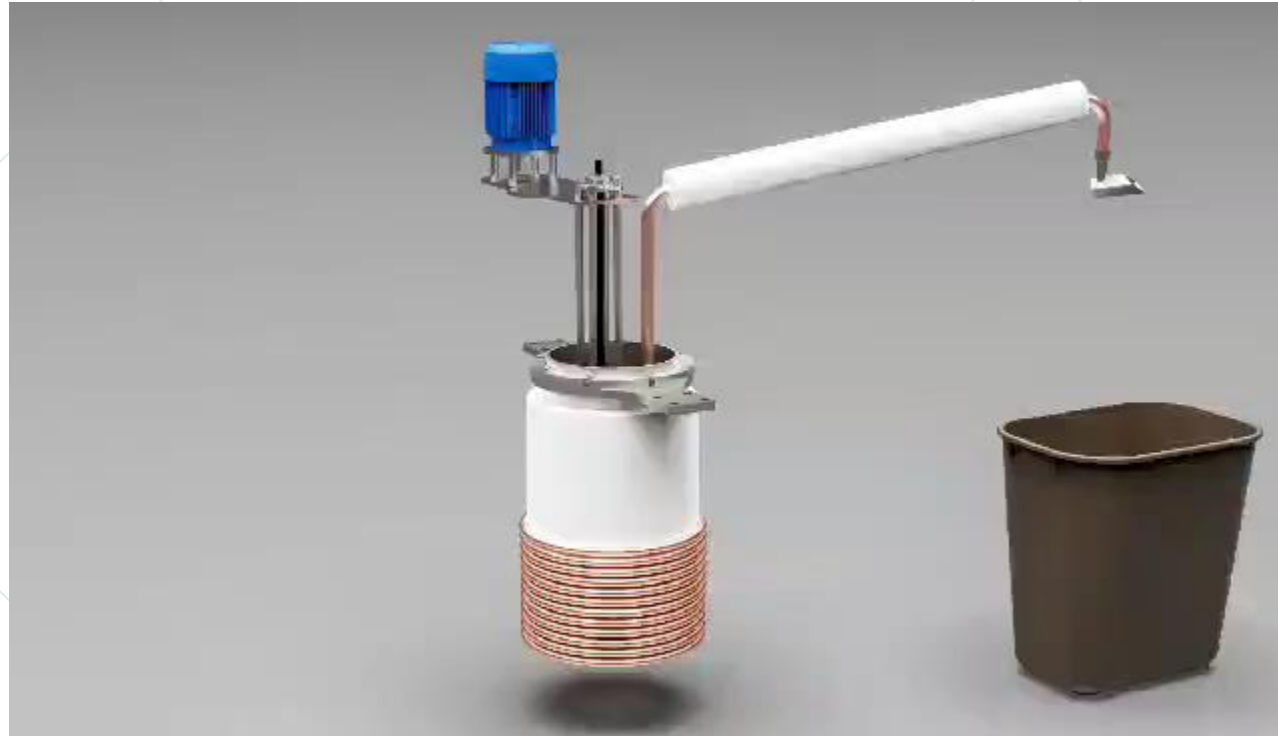

# BENEFITS

- 1- Just in time production**
- 2- Reach 400°C in 20 minutes**
- 3- Production rate: 6 t/h**
- 4- Equipment footprint reduced by 50%**
- 5- Automatic dross removal**
- 6- 60% lower energy consumption**

# BENEFITS

- 1- Just in time production**
- 2- Reach 400°C in 20 minutes**
- 3- Production rate: 6 t/h**
- 4- Equipment footprint reduced by 50%**
- 5- Automatic dross removal**
- 6- 60% lower energy consumption**
- 7- Zero Exhaust Emissions**

# FASTMELT SYSTEM
